

LINERS

SPECIALTIES

**Our high quality liners, without compromise,
to meet the most demanding expectations.**

Custom-made excellence

MADE IN FRANCE

Carefully made in our Brittany workshops, each DEL liner is made with precision to ensure a perfect fit with the lines of your pool.

Discover the four high-quality collections in our Specialities liner range.

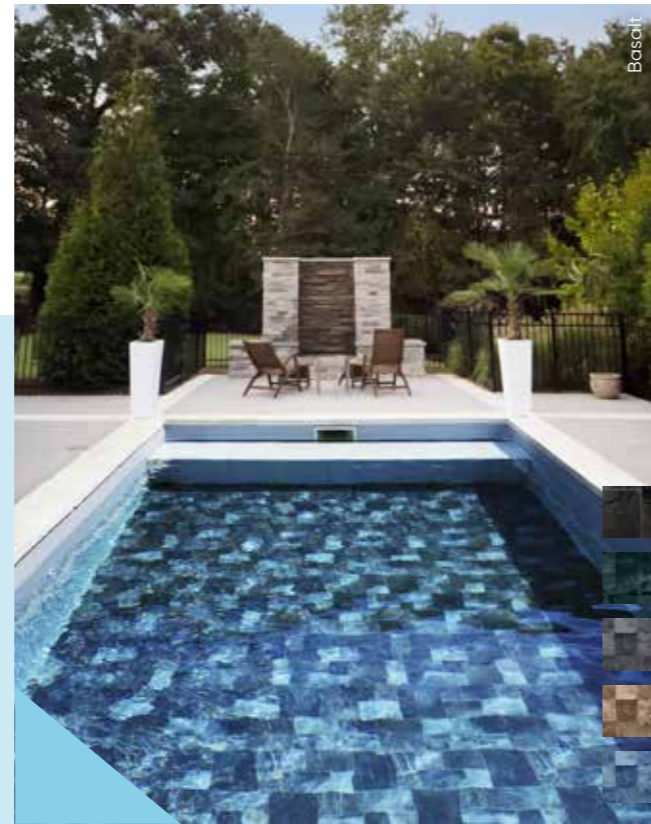

Steel grey

PROTECT 33

Ideal for users looking for a liner that withstands harsh external conditions (temperature, UV, cleaning products). The Protect 33 liner guarantees exceptional durability and enhanced stain protection through an exclusive, highly demanding DEL specification, ensuring your pool is protected throughout the seasons.

Basalt

TILES

For lovers of contemporary design, the Tiles liner is the perfect solution, offering a tiled look while simplifying maintenance compared with traditional ceramic. Popular with modern pool enthusiasts, it offers a high-end finish and long service life.

Enhance your pool and reinforce its safety with

DLINER

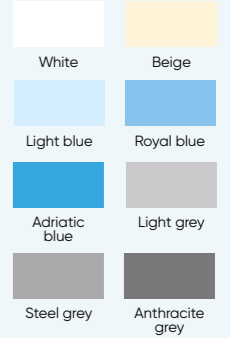

Discover this service on video!

Customise the colour or pattern of one or more areas of the pool to fully express your style.

Choose the areas to be protected against slipping with Del Rio 101/100th grain anti-slip liner, compatible with all our liners (floor, stairs, bench...).

Non-slip colours

Your are unique, and so is your pool!

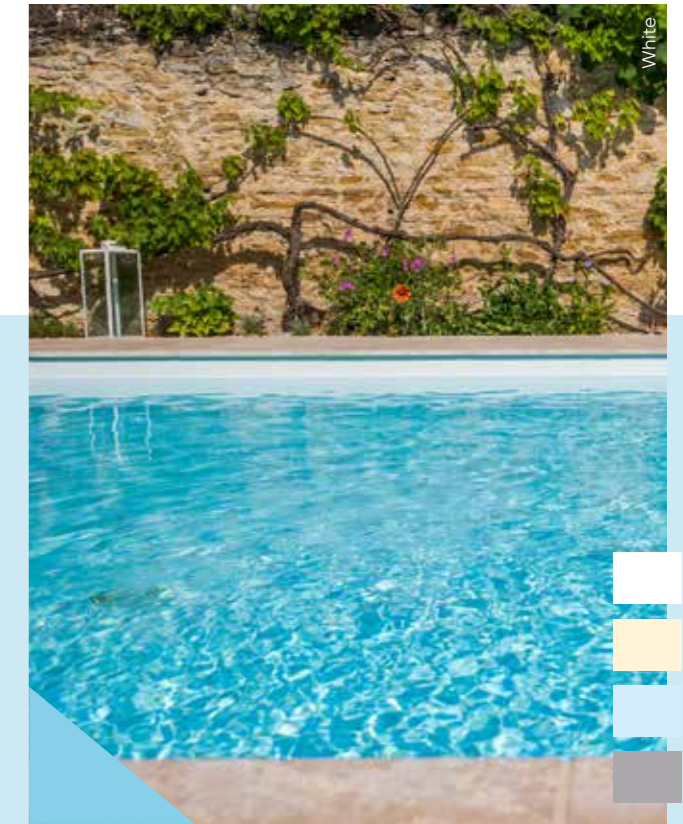

3D Sand

XTRA

For a natural, sophisticated pool design, Xtra liner creates a striking 3D stone effect that's as authentic to look at as it is to touch. Its non-slip texture provides safety, while its 4 natural stone-inspired patterns adapt to all types of surrounds for an elegant, contemporary style.

White

EVOLUTION

Designed for those who want a phthalate-free alternative, while guaranteeing optimal performance. This liner offers better health protection for users and increased resistance to stains. Recommended for families who are particularly mindful of the materials used in their pool.

PROTECT 33

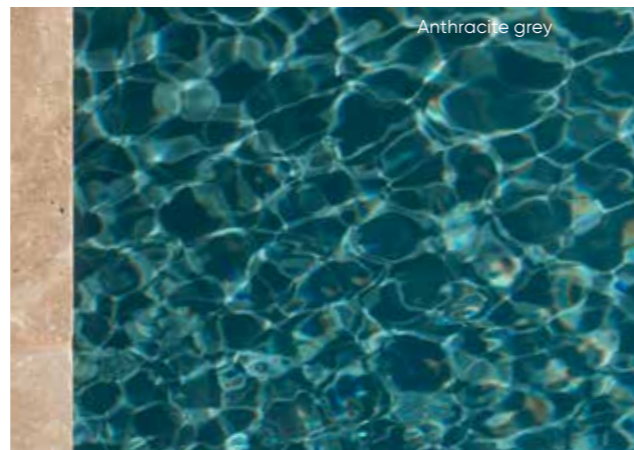

COLLECTION

The high-tech liner that defies time and harsh conditions.

Choose **Protect 33** liner, designed to **withstand the most demanding environmental conditions**. Its **exclusive composition** and silky varnish protection ensure a velvety finish, for a pool that's easy to maintain and long-lasting over time.

Steel grey

Anthracite grey

Exceptional longevity

- Its exclusive composition and silky protective finish ensure a velvety pool that is **easy to maintain** and **durable over time**.
- Optimum thermal resistance up to 33°C, ideal for **durability in all conditions**.

A design tailored to your needs

- **6 elegant colours**, offering shades of blue that vary from light to dark, perfectly matching your preferences and environment and surrounds.
- Advanced customization, thanks to **the exclusive ID Liner service**, for a unique result.

Advanced protection against stains and wrinkles

- **High-performance PVC resin** prevents wrinkling.
- **Acrylic varnish**, designed to simplify maintenance and offer enhanced protection against dirt and aging.

Solid warranties for maximum peace of mind

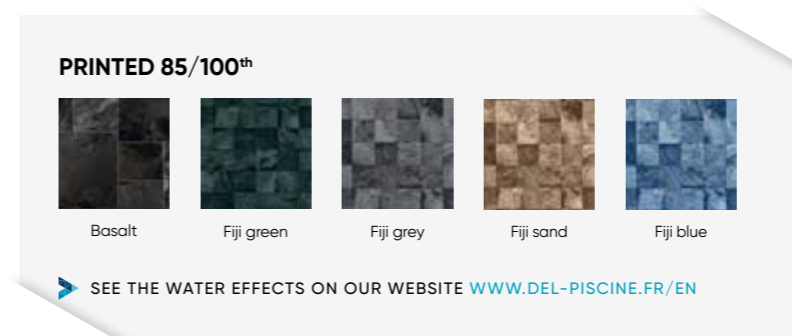

- 15-year waterproofing warranty for **outstanding performance**.
- 3-year anti-stain guarantee, ensuring your **pool is always spotless**.
- Complies with **EN 71-3 standard**, originally designed for children's toys.

TILES

COLLECTION

The realistic effect of tiles without the constraints, for an enchanting pool.

Bring the subtle charm of ceramic to your pool. **Trendy printed colours** and high-quality, custom-made manufacture guarantee an elegant, durable and easy-to-maintain pool, with DEL reliability.

Fiji grey

Fiji green

A tiled look strikingly authentic

- Carefully designed patterns that replicate **the appearance of genuine tiles**, measuring 10 cm on each side for the Fiji colours and varying dimensions for Basalt.
- No joints to maintain, no risk of peeling, no roughness from unevenly laid tiles.

Performance built to last

- **Resistance** to high temperatures (up to 33°C), stains and ageing, for a longer-lasting, sparkling pool.
- Thickness of 0.85 mm, guaranteeing **strength and durability**, with a 15-year waterproofing guarantee.

A unique and remarkable style

- The different tones of the Tiles liner oscillate between **sober refinement** and **exotic boldness**.
- Ideal for installation over the entire pool or in combination with a plain colour from the Protect 33 range for **a structured visual effect**, thanks to the exclusive ID Liner DEL service.

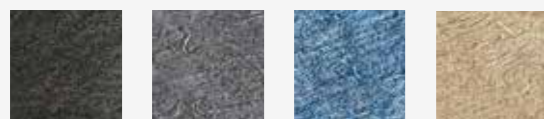

Basalt

XTRA COLLECTION

Faithful rendering of stone in relief for a liner that combines style and safety.

Give your pool character and authenticity with **Xtra** liner. Its **0.95 mm** thickness and **3D stone-effect** texture combine enhanced durability with natural aesthetics, while its anti-slip properties provide peace of mind.

A stone effect more realistic than ever

- A printed, textured material for a **contemporary design** that reflects with the beauty of **natural stone**.
- 4 patterns in different shades for a pool that matches your desires.
- Perfect for creating a sophisticated pool that blends harmoniously into any environment.
- Customisation is possible with the **exclusive ID Liner DEL service**, for a pool that matches your style even more.

Enhanced thickness for superior resistance

- Thicker liner, ensuring **increased protection** against punctures.
- **The best compromise** between liner and on-site lining.

A 3D anti-slip texture for safety

- Thanks to its embossed structure (class C), Xtra liner ensures **optimum grip** limiting the risk of slipping all over the pool, including steps and shallow underwater areas.
- **Enhanced safety** for the whole family, without compromising on design and compliant with NF EN 16582-1 safety standard, for a worry-free swimming experience.

EVOLUTION COLLECTION

The performance of a high-end liner with a phthalate-free composition.

With Evolution, DEL redefines its liners to meet **the highest quality standards** while incorporating a phthalate-free formulation. Designed for long-lasting efficiency and perfect dimensional stability, it guarantees a **reliable, durable watertight seal**.

A more sustainable composition for a higher standard of protection

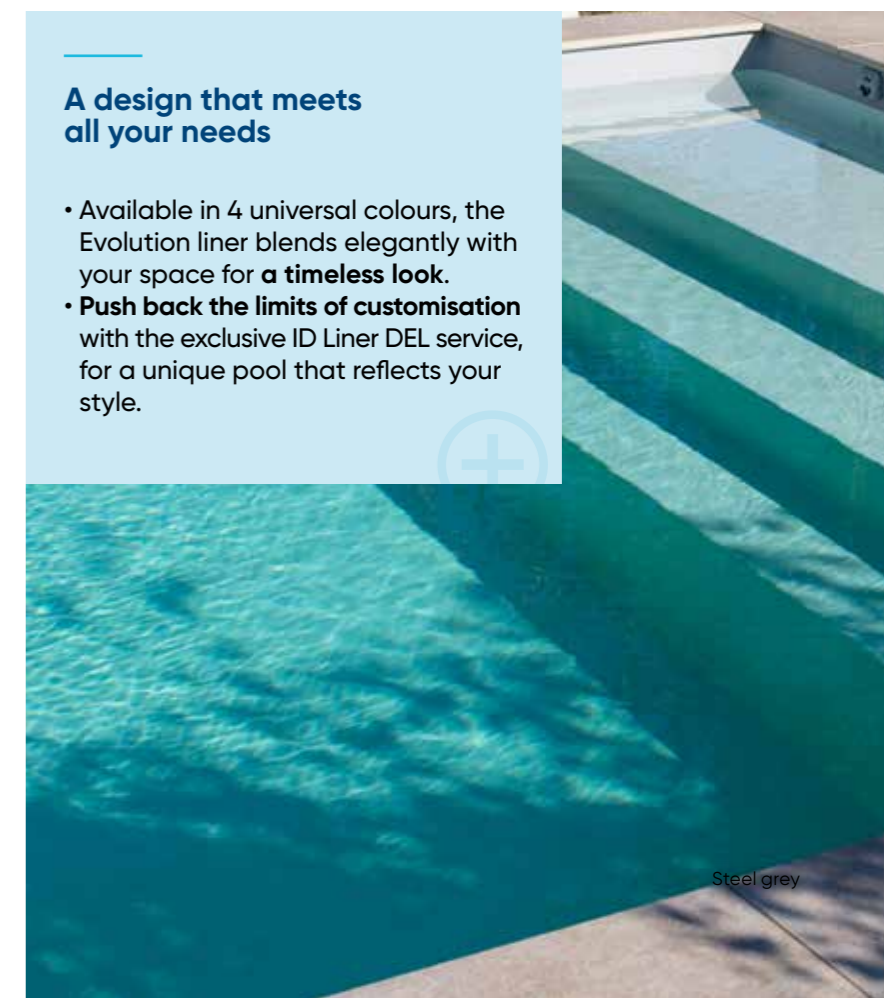

- By incorporating phthalate-free plasticizers, DEL opts for a formulation that **complies with EN 71-3 standard**, originally developed for children's toys.
- Designed for exceptional **dimensional stability**, preventing distortion and ensuring a perfect long-term installation.

High-performance resistance to ensure durability.

- Evolution offers **excellent stain and ageing resistance**, reducing maintenance efforts for a consistently crystal-clear water.
- Suitable for temperatures up to 32°C, it **maintains its performance** even under intensive use.
- Its engineered thickness guarantees **perfect sealing**, backed by a 10-year warranty.

A design that meets all your needs

- Available in 4 universal colours, the Evolution liner blends elegantly with your space for a **timeless look**.
- **Push back the limits of customisation** with the exclusive ID Liner DEL service, for a unique pool that reflects your style.

Butterfly water line

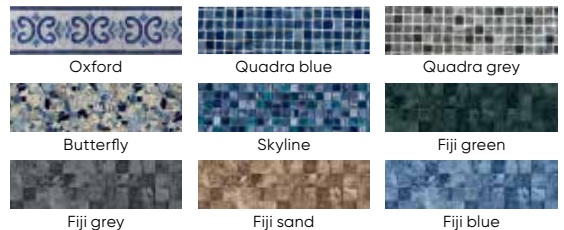

EXPERTISE AT YOUR SERVICE

- Over **40 years of expertise** in the manufacture of top-quality liners.
- **Rigorous quality controls** at every stage of production in our French workshops.
- The mastery to offer you a liner whatever the shape of your pool, and always to **the perfect measurements**.
- DEL is the liner manufacturer that maximises **customisation**: the combinations of colours and patterns are endless.
- **Expert support**, with recommendations tailored to your installation thanks to coordination between DEL and your pool expert.
